

The London Breast Clinic

The London Breast Clinic was established in 1991.

We have a highly qualified and dedicated team of Consultants who provide a comprehensive rapid diagnostic breast care service on site at 108 Harley Street. Surgery and adjuvant treatment at other sites under the care of our team.

A range of integrated breast care services are provided for both benign and malignant disease, including screening, surgery, radiotherapy, chemotherapy, reconstruction and after care. All treatment programmes are individually tailored to suit the patient's needs, members of the team working closely together in a multi-disciplinary environment to ensure the best treatment with peace of mind and minimal delays. The London Breast Clinic is a Bupa Approved Breast Cancer Unit.
